

Travel Management Platform

In a world of growing uncertainty, employers are increasingly held responsible for providing duty of care towards their travelling employees. At the same time, there are no regulations that outline your responsibilities, making it difficult to know where to start. ***Our travel management platform helps you to put the right building blocks in place, enabling you to manage your duty of care with ease.***

Automated

Free up your time to manage the daily security challenges that arise.

Modular

A simple and effective platform that is customised to work with your unique workflow.

Integrated

Ease your administrative burden by integrating your travel policy directly into the platform.

Networked

Create a seamless ecosystem by integrating the platform with your existing travel agencies.

Global alerts

Know what's going on where your travellers are. Receive relevant incident alerts, worldwide.

Tracking

Active and passive tracking enables you to track travellers in remote or high-risk locations.

Check-in

Obtain peace-of-mind by scheduling check-ins with travelling employees.

Two-way communication

Instantly make contact with individual travellers and groups via chat, SMS, or voice messages.

Risk information

Prepare your employees. Automatically send country reports when a new trip is booked.

Incident management

A triage system helps you to respond to incidents and provide assistance in a timely manner.

Duty of care, **made easy.**

If you're interested in a technical solution to help facilitate your duty of care, email Isha Pinto at ish@guardian-srm.com for more information or to arrange a live demo at your organisation.
